Part/Order no: Packing

RXSOL-22-2209-210 210 Ltr

RXSOL-22-2209-025 25 Ltr

Bilge Coat (Sulphur Acid Neutralizer):

Rxsol Bilge Coat is highly effective chemicals and an alkaline Solution for the Bilge Line and well during the carry of cargo as like Sulphur. This Product act as a neutrilizer for the collection of Acidic Bilge Water. Bilge coat is more safer and effective in use compare than other alkaline Materials.

Dose and Using Procedure:

- Use a clean Drum or any plastic tank. Fthe water up to 92 Ltrs and add the Bilge coat 4 Ltrs. Stirr well and now it is ready to use.
- Pour 15 to 20 litres of Bilge Coat Solution directly into each hold sounding pipe from on deck. Replenish each time after the bilge water is pumped out.

Benifit:

- Bilge Protection against Acidic Water.
- Enviroment Friendly.
- Low quantity is sufficiant Due to High Concentration and easy ro transport.
- Can be Easy Use and make the solution by Ship Crew on board.
- Due to liquid easy to handle and safe compare than other solid alkaline materials.
